# About Us

We are a team of corporate executives –turned–teachers dedicated to simplifying learning for students and guiding them toward admission in top undergraduate institutions in India. With backgrounds in premier institutions like IITs, BITS, and NITs, combined with extensive industry experience, we bring a unique blend of expertise to our teaching.

We believe that STEM education is best delivered through real-life applications and relevance-focused pedagogy. Our faculty's blend of teaching skills and industry insights sets us apart in the test preparation space, enhancing the academic success of our students.

# Our Objective

- To reinforce the learning in Sciences and Mathematics and invoke critical thinking in our children.
- To give our children an exposure to beyond-the-school academics.
- To make the test preparation mechanism simpler for school going children without compromising on over all academic growth.
- To make the learning – process fun-filled without putting undue pressure on the young minds.
- To provide continuous mentorship to our children empowering them to chart out an illustrious career path.
- To hand-hold the children while they transition through the formative years of their lives.
- To innovate constantly for creating effective mechanisms and tools to enhance the pace of learning.

# Parents' Speak

Centum does well to partner with the schools. The fact that the classes were at the school premises, aligned with the school timings and curriculum – gave a flavour of an integrated experience while allowing for the joys of regular school separately. The teachers are good and pay good attention to individual needs. Engaging with Centum early on definitely helped my son in his journey towards the highly competitive engineering entrance examinations without adding undue stress.

My son has been with Centum since Std 9 and we are very happy with the progress that he has made over the last 4 years. The way the teaching was structured over 9 and 10 helped in the 10 board exams and we could see the intensity picking up for 11 and 12 to align with 12 boards and competitive exams. We were especially happy that every student was given individual attention allowing them to learn and grow quickly. The faculty is very knowledgeable, approachable and friendly and genuinely interested in ensuring the students perform to the best of their potential. We have got good results and wish Centum teachers and students all the very best for the future

Ruchir has undergone centums coaching classes for the last four years and we are very happy to have received the guidance and support from Dheeraj sir, Tushar sir, Akhil sir, Gaurav sir and the other faculty at Centum. The way the teachers at centum have taken keen interest in the growth of each and every child, with the best quality teaching, helped Ruchir develop deep interest in the subjects. Which in turn helped him score well in jee mains.
